

MBH1

Recessed Luminaire with Ligature Resistant Doorframe for Behavioral Health applications.

The MBH1 series by Certolux is a recessed luminaire designed to resist ligature and intentional abuses. Tamper resistant hardware and durable polycarbonate lensing are standard. The architectural diffuser provides a durable yet non-clinical appearance. The one-piece inset door seals directly to the housing.

The mounting is designed for flanged/drywall or security ceilings. Most models are found in the guide and accepted for use in high-risk areas.

Designed to provide comfortable ambient lighting capable of fixed white, simple tunable white or Bios™ dynamic or static circadian lighting. An optional amber night light can facilitate bed-check without disturbing the patient.

The MBH1 series:

- Non-Clinical Appearance
- Ligature Resistant
- Resists Intentional Abuse
- Guide accepted for use in high-risk areas.

Built for Durability

- Heavy Gauge Construction
